**DESIGN GUIDELINES:**

### Area Specific Design Guidelines

**Cow Hollow Neighborhood Design Guidelines**

The purpose of these Cow Hollow Neighborhood Design Guidelines is to assist in determining whether the renovation or expansion of an existing building, or the construction of a new building, is visually and physically compatible with the neighborhood character of Cow Hollow.

### Residential Design Guidelines

The Residential Design Guidelines articulate expectations regarding the character of the built environment and are intended to promote design that will protect neighborhood character, enhancing the attractiveness and quality of life in the city. These guidelines are integral to the Department's design review process for residential districts.

### Urban Design Guidelines

The Urban Design Guidelines are an implementation document for Urban Design Policy in the General Plan. Sites in National Register, California Register, Article 10 and Article 11 Historic Districts are exempt. They apply in Residential districts only for projects with non-residential uses or residential projects with twenty-five units or more or with a frontage longer than 150'.

### Citywide Design Guidelines

**Architectural Design Guide for Exterior Treatments of Unreinforced Masonry Buildings during Seismic Retrofit**

This design guide should provide guidance on how to maintain the historical character of a building when conducting seismic retrofit. General information only. Use of this information for specific applications should be determined in each instance by the user and only upon the professional advice of competent experts.

**Better Streets Plan**

The Better Streets Plan contains guidelines that focus on pedestrian comfort, safety, and the usability of streets as public spaces. They contain pedestrian-oriented guidelines for curb lines, crosswalks, and other street design features to enable generous, usable public spaces.

**Commission Guide for Formula Retail**

The purpose of this document is to evaluate the appropriateness of each individual formula retail establishment's use, design, and necessity to help preserve the character of the City's neighborhoods. Aligns with Planning Code Sections 303.1, 703.3, 803.6(c), Article 6, Article 11

**Design Guide Standards for Bird-Safe Buildings**
These guidelines should be applied to new construction and alterations that require treatment options to meet the Bird-Safe Building Standards.

**Guide to the San Francisco Green Landscaping Ordinance**

The guide describes the Green Landscaping Ordinance and helps San Francisco residents and property owners understand the benefits, requirements, and ways to comply with the ordinance.

**Planning Code; Public Works Code**

**Guidelines for Adding Garages and Curb Cuts**

These guidelines explain the criteria in which new garages and curb cuts are reviewed when installing to an existing or an historic building.

**Guidelines for Ground Floor Residential Design**

The Ground Floor Residential Design Guidelines (Draft) promote buildings that enhance the pedestrian experience and the livability of dwelling by encouraging the ground floor to contribute to active, safe, and comfortable streets.

**Draft Document**

**Standards for Storefront Transparency**

These standards promote a transparent storefront that welcomes customers inside with products and services on display, discourage crime with more "eyes on the street," reduced energy consumption with use of natural light, and enhances the curb appeal and value of the store and the entire neighborhood.

**Planning Code Requirements for Commercial Buildings**

**Standards for Window Replacement**

With such a variety of different window shapes, muntin profiles, methods of operation and configurations, windows can alter the appearance of a building or overall neighborhood character. These standards are meant to inform the applicant on these details and provide design standards that allow new or replacement windows to be approved.

Eligible Normandie Terrace Historic District

The houses at Normandie Terrace were constructed relatively late in the development of the Cow Hollow neighborhood. The land bounded by Vallejo, Scott, Broadway and Divisadero Streets remained undeveloped until 1936 when the block was subdivided and sold to various individuals. The terrace stairs and retaining wall at Vallejo Street were constructed by the City in the same year. The twelve properties along the cul-de-sac were developed between 1937 and 1941, while the remaining homes on the block were completed by 1950. Raycliff Terrace, located on an adjacent block, was developed contemporaneously with the Normandie Terrace block. The development of these large tracts of land significantly shaped the architectural character of the Cow Hollow neighborhood. The houses in Normandie Terrace, and the nearby Raycliff Terrace, were largely designed in the Bay Area Moderne or Second Bay Tradition style, characterized by simplified ornamental forms, versatile and open floor plans, the use of natural materials, and an emphasis on the integration of indoor and outdoor spaces which often resulted in large framed windows and interior courtyard spaces. While the new style of architecture displayed a sleeker and more utilitarian aesthetic, the buildings retained proportions, scale, massing, and materials similar to the surrounding Victorian and period revival buildings. The Bay Area Moderne movement was led by architects such as William Wurster, Garner Dailey, and Joseph Esherick, who designed several houses in this section of Cow Hollow (Dailey designed 44 Normandie Terrace in 1939 and Wurster designed 2560 Divisadero Street in 1939).
