Dear Mr. Jackson,

During our process of endorsement for Delegate Barbara Comstock, we asked the following question and this was her response in July 2014:

QUESTION:

If a question in regard to abortion in cases of rape and incest is asked of you, how would you respond?

ANSWER:

Like Rep. Frank Wolf, who I worked for as a senior aide, I am pro-life and will work to create a culture of life and support protecting all children. I do support a life of the mother and rape and incest exception for abortion and I have voted on not funding abortion except for life of the mother and rape/incest exceptions. Those exceptions have been exceptions in the funding law for years and opposition to funding of abortion has always had broad bipartisan support.

Sincerely,
