BREAKING: First Full Supreme Court Ruling In Over A Year Has Obama FURIOUS

The full panel of nine SCOTUS justices met yesterday to decide the fate of a case very near and dear to Barack Obama and the Democrats. The court ruled 5-4, with Justice Gorsuch casting the tie-breaker, that the only Islam taught to our children in public schools will be the history of Radical Islam and what they can do to help stop it.

Judge Gorsuch, in his first opinion for the high court, wrote:

The government certainly has no business being involved in religion, but this isn't a government issue or a religious issue. This is about the Judicial branch interpreting the laws as they apply to the teaching of religion. We should be teaching any religions in this country besides standard Judeo-Christianity, as our founders wanted, and we certainly shouldn't be filling the children with lies about Islam being a "religion of peace" when they see the carnage on the news almost every day.

It is our duty as Americans first and judges second to safeguard the way our children are indoctrinated.

The Obama administration, after winning this case on appeal in the 17th district court, has no power left, no influence and no friends in the judiciary. And so ends the teaching of Islam in public schools. This goes hand in hand with a ruling just a week or so ago that forbids the teaching of Islamic tenets or Sharia as a part of world history as well.

Looks like the PC police lose. Thank God for our president and his new appointee. Now we can get back to normal, everyday worshipping of the only real God.
