Joint Committee on Taxation

Note: Details may not add to totals due to rounding.

[1] This table provides a distributional analysis of the estimated revenue effects given in JCX-30-25, excluding Subtitle A, Chapter 1, Provisions 6 and 15 through 19; Subtitle A, Chapter 2, Provision 3; Subtitle A, Chapter 3, Subchapter A, Provision 9; Subtitle A, Chapter 4, Subchapter A, Provisions 1 and 3; Subtitle A, Chapter 4, Subchapter B; Subtitle A, Chapter 4, Subchapter C, Provisions 2, 3, 7, 8, and 9; Subtitle A, Chapter 4, Subchapter D, Provisions 1 and 5 through 8; Subtitle A, Chapter 5, Subchapter A, Provisions 1, 2, and 3; Subtitle A, Chapter 6, Provisions 5, 6, and 8; Subtitle B, Chapters 1, 2, and 4; and Subtitle C. See pages 9 through 15 of this document. Individuals who are dependents of other taxpayers, and taxpayers with negative income are excluded from the analysis. Does not include indirect effects.

[2] The measure of income used to place tax returns into income categories is adjusted gross income ("AGI") plus (1) tax-exempt interest, (2) employer contributions for health plans and life insurance, (3) employer share of FICA tax, (4) workers' compensation, (5) nontaxable Social Security benefits, (6) insurance value of Medicare benefits, (7) alternative minimum tax preference items, (8) individual share of business taxes, and (9) excluded income of U.S. citizens living abroad. Categories are measured at 2025 levels.

[3] Federal taxes are equal to individual income tax (including the outlay portion of refundable credits), employment tax (attributed to employees), excise taxes (attributed to consumers), and corporate income taxes. The estimates of Federal taxes are preliminary and subject to change.

[4] The average tax rate is equal to Federal taxes described in footnote [3] divided by income described in footnote [2].

Joint Committee on Taxation

Note: Details may not add to totals due to rounding.

[1] This table provides a distributional analysis of the estimated revenue effects given in JCX-30-25, excluding Subtitle A, Chapter 1, Provisions 6 and 15 through 19; Subtitle A, Chapter 2, Provision 3; Subtitle A, Chapter 3, Subchapter A, Provision 9; Subtitle A, Chapter 4, Subchapter A, Provisions 1 and 3; Subtitle A, Chapter 4, Subchapter B; Subtitle A, Chapter 4, Subchapter C, Provisions 2, 3, 7, 8, and 9; Subtitle A, Chapter 4, Subchapter D, Provisions 1 and 5 through 8; Subtitle A, Chapter 5, Subchapter A, Provisions 1, 2, and 3; Subtitle A, Chapter 6, Provisions 5, 6, and 8; Subtitle B, Chapters 1, 2, and 4; and Subtitle C. See pages 9 through 15 of this document. Individuals who are dependents of other taxpayers, and taxpayers with negative income are excluded from the analysis. Does not include indirect effects.

[2] For the purpose of sorting tax returns by income, equivalized income accounts for the size of a tax unit by dividing the measure of income by the square root of the number of individuals in the tax unit. Income is measured as adjusted gross income ("AGI") plus (1) tax-exempt interest, (2) employer contributions for health plans and life insurance, (3) employer share of FICA tax, (4) workers' compensation, (5) nontaxable Social Security benefits, (6) insurance value of Medicare benefits, (7) alternative minimum tax preference items, (8) individual share of business taxes, and (9) excluded income of U.S. citizens living abroad. Equivalized income is used for sorting only and does not affect income or tax liabilities elsewhere in this analysis. Details are presented for taxpayers sorted into quintiles, each containing a fifth of all tax units, with the highest income quintile further sorted into smaller percentile groups.

[3] Federal taxes are equal to individual income tax (including the outlay portion of refundable credits), employment tax (attributed to employees), excise taxes (attributed to consumers), and corporate income taxes. The estimates of Federal taxes are preliminary and subject to change.

[4] The average tax rate is equal to Federal taxes described in footnote [3] divided by income described in footnote [2].

[5] For returns in the lowest equivalized income quintile, Federal taxes would increase from –\$11.654 billion to –\$7.264 billion.

Joint Committee on Taxation

Note: Details may not add to totals due to rounding.

[1] This table provides a distributional analysis of the estimated revenue effects given in JCX-30-25, excluding Subtitle A, Chapter 1, Provisions 6 and 15 through 19; Subtitle A, Chapter 2, Provision 3; Subtitle A, Chapter 3, Subchapter A, Provision 9; Subtitle A, Chapter 4, Subchapter A, Provisions 1 and 3; Subtitle A, Chapter 4, Subchapter B; Subtitle A, Chapter 4, Subchapter C, Provisions 2, 3, 7, 8, and 9; Subtitle A, Chapter 4, Subchapter D, Provisions 1 and 5 through 8; Subtitle A, Chapter 5, Subchapter A, Provisions 1, 2, and 3; Subtitle A, Chapter 6, Provisions 5, 6, and 8; Subtitle B, Chapters 1, 2, and 4; and Subtitle C. See pages 9 through 15 of this document. Individuals who are dependents of other taxpayers, and taxpayers with negative income are excluded from the analysis. Does not include indirect effects.

[2] For the purpose of sorting tax returns by income, equivalized income accounts for the size of a tax unit by dividing the measure of income by the square root of the number of individuals in the tax unit. Income is measured as adjusted gross income ("AGI") plus (1) tax-exempt interest, (2) employer contributions for health plans and life insurance, (3) employer share of FICA tax, (4) workers' compensation, (5) nontaxable Social Security benefits, (6) insurance value of Medicare benefits, (7) alternative minimum tax preference items, (8) individual share of business taxes, and (9) excluded income of U.S. citizens living abroad. Equivalized income is used for sorting only and does not affect income or tax liabilities elsewhere in this analysis. Details are presented for taxpayers sorted into quintiles, each containing a fifth of all tax units, with the highest income quintile further sorted into smaller percentile groups.

[3] Federal taxes are equal to individual income tax (including the outlay portion of refundable credits), employment tax (attributed to employees), excise taxes (attributed to consumers), and corporate income taxes. The estimates of Federal taxes are preliminary and subject to change.

[4] The average tax rate is equal to Federal taxes described in footnote [3] divided by income described in footnote [2].

[5] For returns in the lowest equivalized income quintile, Federal taxes would increase from –\$10.506 billion to –\$1.124 billion.

[6] Less than 0.05 percent.

PROVISIONS FROM JCX-30-25 INCLUDED IN DISTRIBUTION TABLE JCX-32-25

SUBTITLE A - TAX

Chapter 1: Providing Permanent Tax Relief for Middle-Class Families and Workers

Provision 1. Extension and limited enhancement of reduced rates.

Provision 2. Extension and enhancement of increased standard deduction.

Provision 3. Termination of deduction for personal exemptions other than temporary senior deduction.

Provision 4. Extension and enhancement of increased child tax credit.

Provision 5. Extension and enhancement of deduction for qualified business income.

Provision 7. Extension of increased alternative minimum tax exemption amounts, modification of phaseout thresholds, and increased threshold phaseout rate.

Provision 8. Extension of limitation on deduction for qualified residence interest.

Provision 9. Extension and modification of limitation on casualty loss deduction.

Provision 10. Termination of miscellaneous itemized deductions other than educator expenses.

Provision 11. Limitation on tax benefit of itemized deductions.

Provision 12. Extension and modification of qualified transportation fringe benefits.

Provision 13. Extension and modification of limitation on deduction and exclusion for moving expenses.

Provision 14. Extension and modification of limitation on wagering losses.

Provision 20. Limitation on individual deductions for certain State and local taxes.

Chapter 2: Delivering on Presidential Priorities to Provide New Middle-Class Tax Relief

Provision 1. No tax on tips (sunset 21/31/28).

Provision 2. No tax on overtime (sunset 21/31/28).

Provision 4. Trump accounts and contribution pilot program.

Chapter 3: Establishing Certainty and Competitiveness for American Job Creators

Subchapter A - Permanent U.S. Business Tax Reforms and Boosting Domestic Investment

Provision 1. Full expensing for certain business property.

Provision 2. Full expensing of domestic research and experimental expenditures.

Provision 3. Modification of limitation on business interest.

Provision 4. Extension and enhancement of paid family and medical leave credit.

Provision 5. Exceptions from limitation on deduction for business meals.

Provision 6. Increased dollar limitations for expensing of certain depreciable business assets.

Provision 7. Special depreciation allowance for qualified production property.

Provision 8. Enhancement of advanced manufacturing investment credit.

Subchapter B - Permanent America-First International Tax Reforms (All Provisions)

Chapter 4: Investing in American Families, Communities, and Small Businesses

Subchapter A - Permanent Investments in Families and Children

Provision 2. Enhancement of adoption credit.

Provision 4. Enhancement of the dependent care assistance program.

PROVISIONS FROM JCX-30-25 INCLUDED IN DISTRIBUTION TABLE JCX-32-25 *(continued)***SUBTITLE A - TAX**

Chapter 4: Investing in American Families, Communities, and Small Businesses

Subchapter A - Permanent Investments in Families and Children

Provision 5. Enhancement of child and dependent care tax credit.

Subchapter C - Permanent Investments in Community Development

Provision 1. Permanent renewal and enhancement of opportunity zones.

Provision 4. Permanent and expanded reinstatement of partial deduction for charitable contributions of individuals who do not elect to itemize.

Provision 5. 0.5 percent floor on deduction of contributions made by individuals.

Provision 6. 1-percent floor on deduction of charitable contributions made by corporations.

Provision 10. Exception to percentage of completion method of accounting for certain residential construction contracts.

Subchapter D - Permanent Investments in Small Business and Rural America

Provision 2. Repeal of revision to de minimis rules for third party network transactions.

Provision 3. Increase in threshold for requiring information reporting with respect to certain payees.

Provision 4. Treatment of certain qualified sound recording productions.

Chapter 5: Ending Green New Deal Spending, Promoting America-First Energy, and Other Reforms

Subchapter A - Termination of Green New Deal Subsidies

Provision 4. Termination of alternative fuel vehicle refueling property credit.

Provision 5. Termination of energy efficient home improvement credit.

Provision 6. Termination of residential clean energy credit.

Provision 7. Termination of energy efficient commercial buildings deduction.

Provision 8. Termination of new energy efficient home credit.

Provision 9. Termination of cost recovery for energy property and qualified clean energy facilities, property, and technology.

Provision 10. Modifications of zero-emission nuclear power production credit.

Provision 11. Termination of clean hydrogen production credit.

Provision 12. Termination and restrictions on clean electricity production credit.

Provision 13. Termination and restrictions on clean electricity investment credit.

Provision 14. Phase-out and restrictions on advanced manufacturing production credit.

Provision 15. Restriction on the extension of advanced energy project credit program.

Subchapter B - Enhancement of America-First Energy Policy (All Provisions)

Chapter 6: Enhancing Deduction and Income Tax Credit Guardrails and Other Reforms

Provision 1. Modification and extension of limitation on excess business losses of noncorporate taxpayers.

Provision 2. Treatment of payments from partnerships to partners for property or services.

Provision 3. Excessive employee remuneration from controlled group members and allocation of deduction.

Provision 4. Third party litigation funding reform.

Provision 7. Social Security number requirement for American opportunity lifetime learning credits.

PROVISIONS FROM JCX-30-25 INCLUDED IN DISTRIBUTION TABLE JCX-32-25 *(continued)*

SUBTITLE B - HEALTH

Chapter 3: Health Tax (All Provisions)

PROVISIONS FROM JCX-30-25 EXCLUDED FROM DISTRIBUTION TABLE JCX-32-25**SUBTITLE A - TAX**

Chapter 1: Providing Permanent Tax Relief for Middle-Class Families and Workers

Provision 6. Extension and enhancement of increased estate and gift tax exemption amounts.

Provision 15. Extension and enhancement of increased limitation on contributions to ABLE accounts.

Provision 16. Extension and enhancement of savers credit allowed for ABLE contributions.

Provision 17. Extension of rollovers from qualified tuition programs to ABLE accounts permitted.

Provision 18. Extension of treatment of certain individuals performing services in the Sinai Peninsula and enhancement to include additional areas.

Provision 19. Extension and modification of exclusion from gross income of student loans discharged on account of death or disability.

Chapter 2: Delivering on Presidential Priorities to Provide New Middle-Class Tax Relief

Provision 3. No tax on car loan interest.

Chapter 3: Establishing Certainty and Competitiveness for American Job Creators

Subchapter A - Permanent U.S. Business Tax Reforms and Boosting Domestic Investment

Provision 9. Spaceports are treated like airports under exempt facility bond rules.

Chapter 4: Investing in American Families, Communities, and Small Businesses

Subchapter A - Permanent Investments in Families and Children

Provision 1. Enhancement of employer-provided child care credit.

Provision 3. Recognizing Indian tribal governments for purposes of determining whether a child has special needs for purposes of the adoption credit.

Subchapter B - Permanent Investments in Students and Reforms to Tax-Exempt Institutions (All Provisions)

Subchapter C - Permanent Investments in Community Development

Provision 2. Permanent enhancement of low-income housing tax credit.

Provision 3. Permanent extension of new markets tax credit.

Provision 7. Permanent increase in limitation on cover over of tax on distilled spirits.

Provision 8. Nonprofit community development activities in remote native villages.

Provision 9. Adjustment of charitable deduction for certain expenses incurred in support of native Alaskan subsistence whaling.

Subchapter D - Permanent Investments in Small Business and Rural America

Provision 1. Expansion of qualified small business stock gain exclusion.

Provision 5. Exclusion of interest on loans secured by rural or agricultural real property.

Provision 6. Elimination of tax on certain devices under the National Firearms Act.

Provision 7. Treatment of capital gains from the sale of certain farmland property.

Provision 8. Extension of rules for treatment of certain disaster-related personal casualty losses.

Chapter 5: Ending Green New Deal Spending, Promoting America-First Energy, and Other Reforms

Joint Committee on Taxation

Note: Details may not add to totals due to rounding.

[1] For the purpose of sorting tax returns by income, equivalized income accounts for the size of a tax unit by dividing the measure of income by the square root of the number of individuals in the tax unit. Income is measured as adjusted gross income ("AGI") plus (1) tax-exempt interest, (2) employer contributions for health plans and life insurance, (3) employer share of FICA tax, (4) workers' compensation, (5) nontaxable Social Security benefits, (6) insurance value of Medicare benefits, (7) alternative minimum tax preference items, (8) individual share of business taxes, and (9) excluded income of U.S. citizens living abroad. In distributional analysis, equivalized income is used for sorting only and does not affect income or tax liabilities elsewhere in the analysis. Details are presented for taxpayers sorted into quintiles, each containing a fifth of all tax units, with the highest income quintile further sorted into smaller percentile groups.

[2] This analysis includes nonfiling taxpayers, and excludes individuals who are dependents of other taxpayers, and taxpayers with negative income.

Joint Committee on Taxation

Note: Details may not add to totals due to rounding.

[1] The population of taxpayers represented includes nonfiling taxpayers, and excludes individuals who are dependents of other taxpayers, and taxpayers with negative income.

[2] Equivalized income accounts for the size of a tax unit by dividing the measure of income by the square root of the number of individuals in the tax unit. Income is measured as adjusted gross income ("AGI") plus (1) tax-exempt interest, (2) employer contributions for health plans and life insurance, (3) employer share of FICA tax, (4) workers' compensation, (5) nontaxable Social Security benefits, (6) insurance value of Medicare benefits, (7) alternative minimum tax preference items, (8) individual share of business taxes, and (9) excluded income of U.S. citizens living abroad. In distributional analysis, equivalized income is used for sorting only and does not affect income or tax liabilities elsewhere in the analysis. Percentile values of equivalized income are rounded to the nearest \$100 in the table.

Because a tax unit's equivalized income is the tax unit's income divided by the square root of the number of individuals in the tax unit, increasing the number of individuals while holding income fixed reduces equivalized income, though the rate of reduction declines with each additional individual, reflecting economies of scale in consumption for larger tax units. For example, with \$100,000 in income, a tax unit with a single individual has equivalized income of \$100,000 ($\$100,000 \div \sqrt{1}$), with two individuals has an equivalized income of \$70,711 ($\$100,000 \div \sqrt{2}$), with three individuals has an equivalized income of \$57,735 ($\$100,000 \div \sqrt{3}$), and with four individuals has an equivalized income of \$50,000 ($\$100,000 \div \sqrt{4}$). As the number of individuals increases, the reduction from income to equivalized income declines: the second individual reduces equivalized income by \$29,289 ($\$100,000$ less $\$70,711$), the third individual by \$12,976, and the fourth individual by \$7,735. In 2027, a tax unit with \$100,000 in income and a single individual is in the fourth quintile (between the 60th and 80th percentiles) of equivalized income while tax units with the same income and two to four individuals are in the third quintile (between the 40th and 60th percentiles).
